**CINGULAR WIRELESS LLC
QUARTERLY E911 IMPLEMENTATION REPORT
FOR GSM, TDMA, AMPS, AND TDMA/AMPS NETWORKS**

Cingular Wireless LLC (“Cingular”), by its attorneys and pursuant to the *Orders* in this proceeding,¹ hereby submits its Quarterly E911 Implementation Report. This Report details the status of Cingular’s Phase I and Phase II E911 implementation for its Global System for Mobile Communications (“GSM”), Time Division Multiple Access (“TDMA”), Advanced Mobile Phone Service (“AMPS”) and TDMA/AMPS networks. The instant Report is limited to updating information regarding pending E911 deployments that has changed since the filing of Cingular’s previous report on August 1, 2005.²

On October 26, 2004, Cingular completed its acquisition of AT&T Wireless (“AWS”); thus, this report includes information for the former AWS networks. The Cingular and AWS

¹ *In the Matter of Cingular Wireless LLC*, File No. EB-02-TS-003, NAL/Acct. No. 200232100001, *Order*, 17 F.C.C.R. 8529, FCC 02-132 (2002) (“TDMA Order”); *In the Matter of Cingular Wireless LLC*, File No. EB-02-TS-003, NAL/Acct. No. 200332100003, 18 F.C.C.R. 11746, FCC 03-129 (rel. June 12, 2003) (“GSM Consent Decree”).

² See Cingular Wireless LLC, Quarterly E911 Implementation Report for GSM TDMA, AMPS, and TDMA/AMPS Networks, filed August 1, 2005.

networks have been operated independently, and therefore, separate spreadsheets are attached for each network. Cingular will continue to submit separate spreadsheets until the physical integration of the networks for both companies has been completed.³ Until that time, information regarding PSAP requests received after October 26, 2004 will be reported as following:

- Requests from PSAPs serving areas located within the coverage footprint of both Cingular and the former AWS will be listed in the spreadsheets for each company;
- Requests from PSAPs serving areas located within the coverage area of either Cingular or the former AWS will be listed only in the spreadsheet for the company serving the PSAP; and
- Requests from PSAPs serving areas where network integration has been completed will be listed separately.

STATUS OF IMPLEMENTATION AND DEPLOYMENT PLAN

A. GSM Networks

To date, Cingular has received 4,048 valid PSAP requests for Phase I service on its GSM networks.⁴ Of these 4,048 requests, 3,671 have been deployed and 377 are in progress. Cingular also has received 3,074 valid PSAP requests for Phase II service on its GSM networks.⁵ Of these 3,074 requests, 2,096 have been deployed and the remaining 978 are in progress. The Report and the Spreadsheets set forth as Attachments A - C include information on the status of E911 deployment associated with all PSAP requests for Phase I and Phase II E911 service in areas in which Cingular and AWS operate GSM networks, including the date the request was made and

³ As part of its overall network integration process, Cingular also is merging its E911 compliance tracking systems with those of the former AWS network. The attached spreadsheets reflect the results of that process to date.

⁴ This number is a cumulative total of Phase I requests received by Cingular and the former AWS entity, and excludes requests that have been withdrawn.

⁵ This number is a cumulative total of Phase II requests received by Cingular and the former AWS entity, and excludes requests that have been withdrawn.

the status of the request. GSM has been deployed in all markets served by Cingular and the former AWS.

GSM Consent Decree Benchmarks: Cingular and the former AWS were subject to separate consent decrees.⁶ None of the benchmark deadlines contained in these decrees fell due since the last Quarterly Report was filed. Cingular has deployed its Phase II solution within the six and fifteen month deadlines set forth in the decrees, unless a different deployment date was negotiated with the requesting PSAP.

GSM Compliance Plan: Pursuant to paragraph 7 of Attachment A (“Compliance Plan”) to the *AWS GSM Consent Decree*, AWS officers were required to attend compliance meetings required under paragraph 4 of the Compliance Plan. Although the Compliance Plan was never intended to apply to Cingular (and was not included in Cingular’s Decree), Cingular has nevertheless taken steps to implement it. The officer signing the attached declaration attended quarterly meetings regarding E911 compliance, received the Company’s written advisory regarding E911 compliance, and understands Cingular’s obligation to comply with all E911 rules, the requirements of its consent decrees, and sections 1.17 and 1.65 of the FCC’s rules.

Exceptions Report: Cingular received the FCC Wireless Telecommunications Bureau’s reports entitled “Import Exceptions for Cingular for 2nd Quarter of 2005” and “Import Exceptions for Cingular (former AT&T Wireless) for 2nd Quarter 2005” (the “Exceptions Reports”). In preparing the spreadsheets attached as Attachments A - C respectively, Cingular made its best efforts to address each issue raised in the Exceptions Reports.

⁶ *Cingular GSM Consent Decree; AT&T Wireless Services, Inc.*, File No. EB-02-TS-018, NAL/Acct. No. 200232100002, FRN 0003-7665-32, *Order*, FCC 02-283 (rel. Oct. 9, 2002) (“AWS GSM Consent Decree”).

B. TDMA, AMPS, TDMA/AMPS Networks

To date, Cingular has received 3,649 valid PSAP requests for Phase I service on its TDMA networks.⁷ Of these requests, 3,287 have been deployed and 362 are in progress. Cingular also has received 2,721 valid requests for Phase II service on its TDMA networks.⁸ Of these requests, 1,826 have been deployed and 895 are in progress. This Report and the Spreadsheets attached as Attachments A - C include information on the status of E911 deployment associated with all PSAP requests for Phase I and Phase II E911 service in areas in which either Cingular or the former AWS entity operate TDMA networks.

Cingular has deployed a network-based, Phase II technology designed to satisfy the Commission's accuracy requirements of 100 meters for 67 percent of calls and 300 meters for 95 percent of calls. Compliance with these accuracy requirements has been measured based on drive-test data and, historically, this data has confirmed that Cingular's network-based solution satisfied the accuracy requirement.

In reviewing drive test data in preparation for this report, Cingular discovered that the drive test and data analysis procedures utilized by its two network-based solution vendors differed substantially. After evaluating the procedures utilized by the two vendors, a number of anomalies were discovered that called into question a significant number of the tests and the manner in which the data was analyzed. Cingular also determined that its Phase II solution was not performing optimally due primarily to merger-related integration issues, including malfunctioning location monitoring units ("LMUs") and other accuracy-impacting issues. As a result, Cingular lacks confidence in the drive test data that must form the basis for its

⁷ This number is a cumulative total of Phase I requests received by Cingular and the former AWS entity, and excludes requests that have been withdrawn.

⁸ This number is a cumulative total of Phase II requests received by Cingular and the former AWS entity, and excludes PSAP requests that have been withdrawn.

certification that its network-based solution complies with the Commission's accuracy requirements. To help monitor performance of its E911 solution in the future, Cingular is working to ensure that its vendors adhere to sound engineering and statistical practices for evaluating the compliance of its network-based Phase II E911 solution.

Cingular is extremely focused on full E911 compliance. Immediate progress on this FCC requirement is being monitored and assessed at the highest levels within the Company. Cingular is allocating unprecedented resources towards resolution of this issue and the Company believes that the problems with the drive tests, LMUs, and related issues can be resolved prior to the next Quarterly Report. Based on the foregoing, Cingular expects that it will be able to certify full compliance with the accuracy standards in the next Quarterly Report on February 1, 2006.

If you have any questions, please contact the undersigned.

Respectfully submitted,

DECLARATION OF EDGAR REYNOLDS

I, Edgar Reynolds, President of Network Operations for Cingular Wireless LLC ("Cingular"), make this declaration in support of the "Quarterly Report Regarding E911 Implementation for GSM, TDMA, AMPS and TDMA/AMPS Networks" filed by Cingular pursuant to the Federal Communications Commission's *Orders* (released May 9, 2002 and June 12, 2003) regarding Cingular's E911 implementation. In my role as President of Network Operations, I oversee Cingular's efforts to (i) provide Phase I location information in response to valid PSAP requests, and (ii) implement Phase II location technologies. I have attended quarterly meetings regarding E911 compliance, received the Company's written advisory regarding E911 compliance, and understand Cingular's obligation to comply with all E911 rules, the requirements of its consent decrees, and sections 1.17 and 1.65 of the FCC's rules. I have reviewed the Report and declare under penalty of perjury that the information therein concerning Phase I and Phase II deployment is accurate to the best of my knowledge, information and belief.

With regard to accuracy, I note that Cingular has deployed a network-based, Phase II technology designed to satisfy the Commission's accuracy requirements of 100 meters for 67 percent of calls and 300 meters for 95 percent of calls. Compliance with these accuracy requirements has been measured based on drive-test data and, historically, this data has confirmed that Cingular's network-based solution satisfied the accuracy requirement.

In reviewing drive test data in preparation for this report, Cingular discovered that the drive test and data analysis procedures utilized by its two network-based solution vendors differed substantially. After evaluating the procedures utilized by the two vendors, a number of anomalies were discovered that called into question a significant number of the tests and the manner in which the data was analyzed. Cingular also determined that its Phase II solution was not performing optimally due primarily to merger-related integration issues, including malfunctioning location monitoring units ("LMUs") and other accuracy-impacting issues. As a result, I currently lack confidence in the drive test data that must form the basis for my certification that Cingular's network-based solution complies with the Commission's accuracy requirements.

Based on conversations between Cingular personnel and location technology vendors, I believe that the problems with the drive tests, LMUs, and related issues can be resolved prior to the next Quarterly Report. Cingular remains committed to a network-based solution for providing Phase II E911 data and I am confident that I will be able to certify full compliance with the accuracy standards in the next Quarterly Report.

Executed November 1, 2005

Edgar Reynolds
President of Network Operations
Cingular Wireless LLC

CERTIFICATE OF SERVICE

I, Felicia Lane, hereby certify that on the 1st day of November 2005, copies of the foregoing "E911 Quarterly Report" have been served by either first class mail, postage prepaid to the following:

Kris Monteith
Acting Bureau Chief
Enforcement Bureau
Federal Communications Commission
445 12th Street, S.W., Room 7C-485
Washington, D.C. 20554

Tim Ryan
Acting Executive Director, APCO
APCO International, Inc.
World Headquarters
351 N. Williamson Blvd.
Daytona Beach, FL 32114

Rob Martin
Executive Director
National Emergency Number Association
4350 North Fairfax Drive
Suite 750
Arlington, VA 22203

Catherine W. Seidel
Acting Bureau Chief
Wireless Telecommunications Bureau
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Steve Marzolf
President, NASNA
VITA/Divs. Public Safety Cmn.
110 S. 7th St., Su. 100
Richmond, VA 23219-3931

James R. Hobson
Counsel for NENA and NASNA
Miller & Van Eaton
1155 Connecticut Avenue, N.W.
Washington, D.C. 20036
